

Getac RX10 Docking Station

A lightweight, rugged, and easy to use docking system for your Getac tablet

One-handed operation

Sometimes when you're working, you have your hands full. That's why the RX10 docking station was designed to be used one-handed. Just push the top of the computer against the latch button until the latch engages - now your computer is fully docked. To remove it, push the latch button down with your thumb and pull the computer out.

Rugged design

All Gamber-Johnson products go through extensive shock, vibration, and crash testing to ensure they hold up to the harshest abuse.

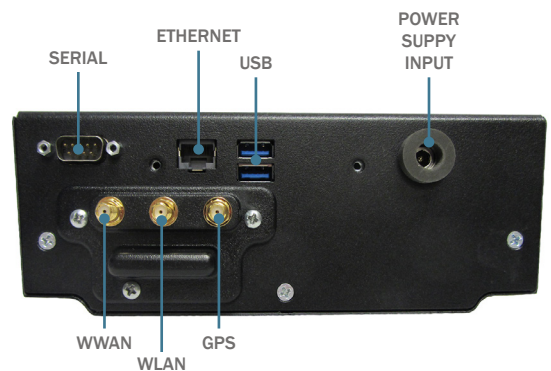

Weight: 2.3 lbs (1.0 kg)

Dimensions: 10.25" (26.0 cm) H x 11.25" (28.6 cm) W x 2.5" (6.4 cm)
